

OPTRONICS®

ENTERPRISE NETWORKS AT A GLANCE

Make sure your building reaches its full communications potential. Today's enterprise network should be easy to scale and migrate to higher speed protocols. FibreFab® has a comprehensive portfolio of standards driven, space saving OPTRONICS® fibre and copper cabling solutions that enable your network to quickly and efficiently grow with your business.

OPTRONICS® is a comprehensive platform of configurable fibre and copper connectivity solutions, designed and manufactured by FibreFab, to increase bandwidth, migrate easily, expand capacity, maximize space, offer great economy, and allow rapid deployments.

FibreFab® have decades of expertise in the design and manufacture of network solutions, with capabilities and infrastructure to rapidly deliver pioneering network connectivity solutions across the globe. That is why some of the most vital and advanced networks in the World rely on OPTRONICS®.

KEY BENEFITS

- High performance, reliable networks with flexible configurations
- 25 Year System Warranty available when installed by a FibreFab Installation Partner
- Solutions available worldwide from our FibreFab Distribution Partners
- Fast bespoke design capability
- Solution Engineers on hand to assist with complex requirements

1

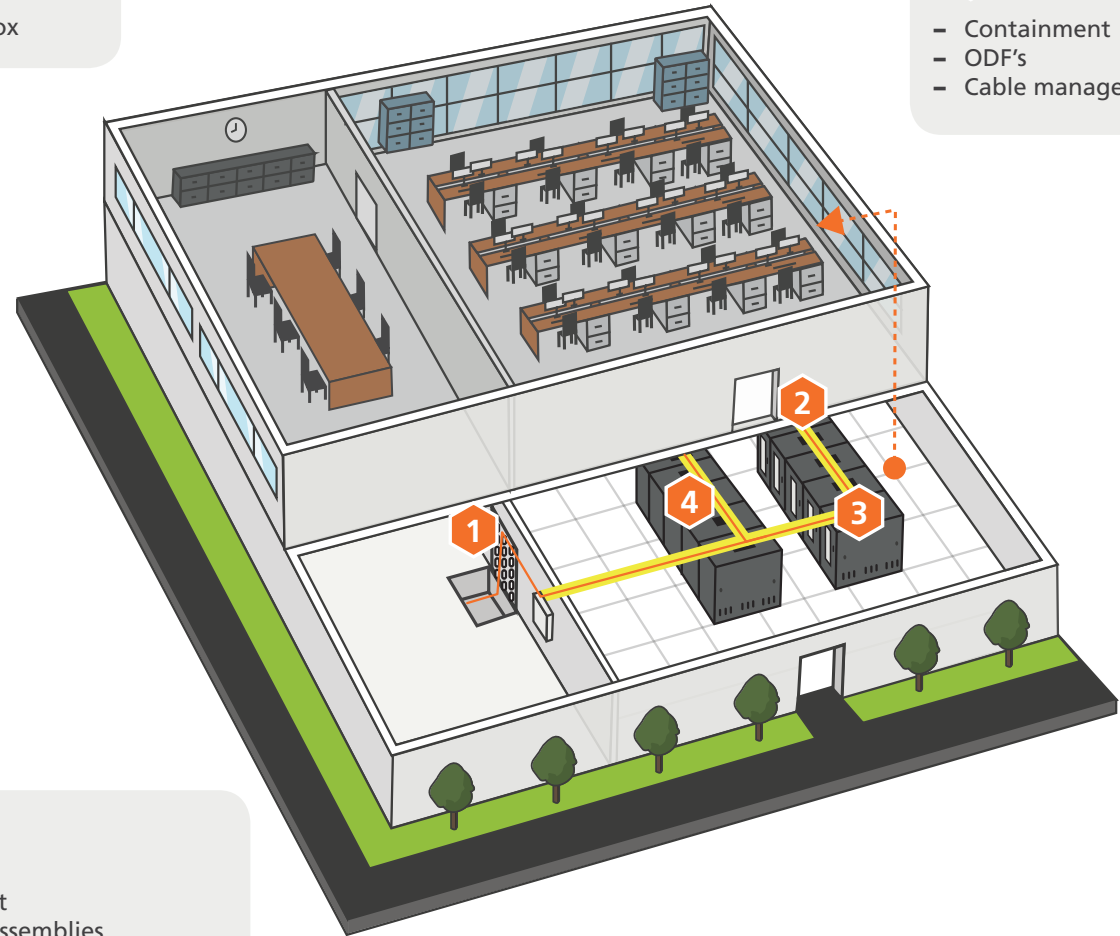

- Frames
- Wall box

2

- Overhead ducting
- Raceways

3

- Containment
- ODF's
- Cable management

4

- Cabinet
- MPO Assemblies
- Copper and fibre preterminated assemblies
- Modular Solutions
- Ultra-High Density Panels
- Sliding Panels
- Patch leads
- PDUs
